BUSINESS ENVIRONMENT IN 2021

Emerging COVID-19 Variants

• The business landscape has become more challenging as a consequence of the emerging COVID-19 variants and prolonged lockdown.

Disruption to Global Supply Chain

• The spillover effects have also resulted in global supply chain issues and shipping delays.

Sales Tax Exemption

• The extension of the sales tax exemption had helped to spur the automotive sales recovery in Malaysia.

COVID-19 Vaccines

• The roll-out of the COVID-19 vaccines has also curbed the further outbreak of the virus and commenced the progressive transition into endemic and economic recovery.

Government's Economic Stimulus and Aid Packages, Relaxation of Movement Controls

• Government's effort in the economic recovery by providing economic stimulus and aid packages followed by gradually relaxing the movement controls are vital for economic activities to pick up.
